6 – Add Pages

On the Pages tab, click “Add Page” to name a new page and layout.

The new page will appear in the list on the left.

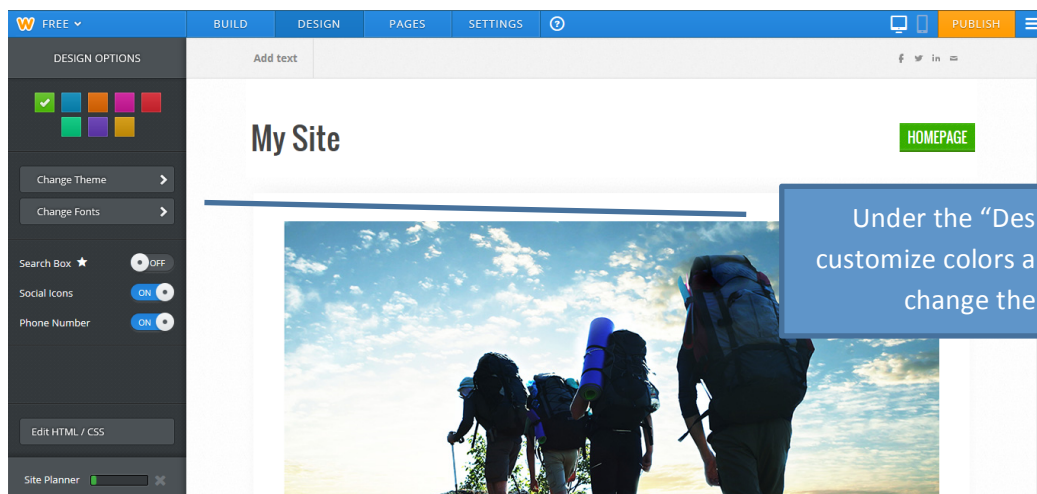

7- Order Pages/Create a Hierarchy

Add additional pages to add to your list. Sort pages in order or create a hierarchy of pages. (ex. Math may be a page, but Fractions might be a subpage)

Click and drag (slide in) under pages to create subpages.

8 – Customize Design

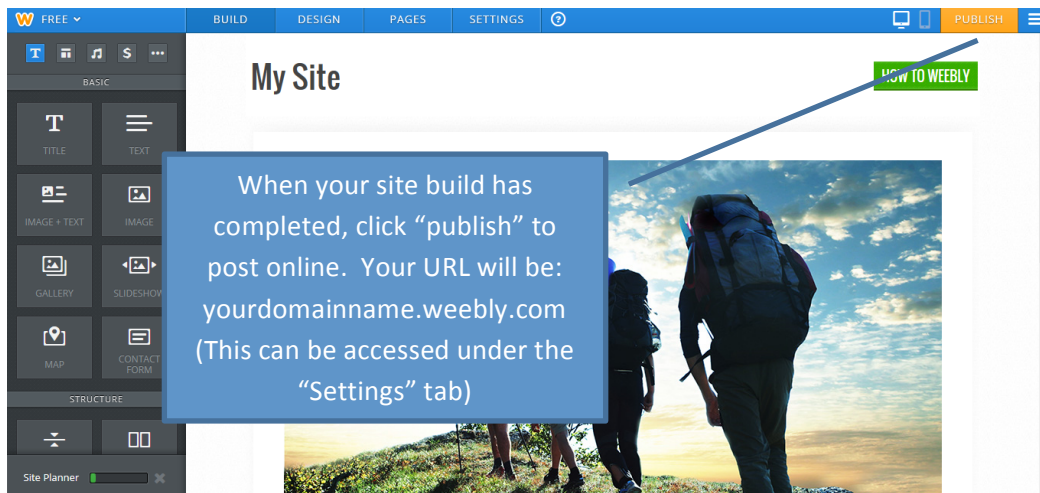

Under the “Design” tab, customize colors and fonts, or change themes

9 – Publish!

The screenshot shows the Weebly website builder interface. At the top, there is a navigation bar with tabs for BUILD, DESIGN, PAGES, SETTINGS, and PUBLISH. The PUBLISH tab is highlighted in orange. Below the navigation bar, the main workspace displays a preview of a website titled "My Site". A blue text box is overlaid on the preview, containing the following text: "When your site build has completed, click 'publish' to post online. Your URL will be: yourdomainname.weebly.com (This can be accessed under the 'Settings' tab)". A blue arrow points from the text box to the PUBLISH button in the navigation bar. The left sidebar contains various design elements like TITLE, TEXT, IMAGE, GALLERY, SLIDESHOW, MAP, and CONTACT FORM. The bottom left corner shows a "Site Planner" progress indicator.

When your site build has completed, click "publish" to post online. Your URL will be: yourdomainname.weebly.com (This can be accessed under the "Settings" tab)
