

# My MAP Moment

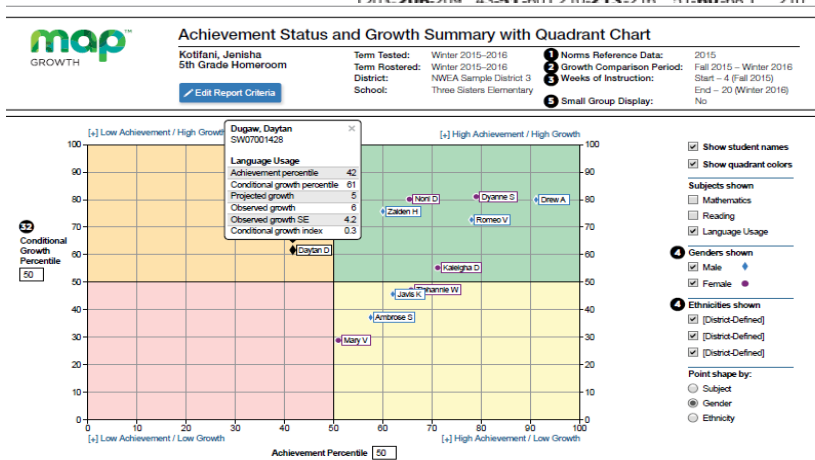

August 21, 2017

The start of the school year is the perfect time to review your new students' data. Are you wondering how your new students performed last year on their MAP assessments and how much growth they had so that you can hit the ground running with targeted instruction? If so, check out the [Achievement Status and Growth Report](#)! This report will provide you with data that you can use today to plan personalized, differentiated instruction for all your students. To access this report, follow these easy steps:

- Go to the [MAP login page](#)
- Click on MAP Growth Reports
- Select Summary with Quadrant Chart
- Enter the term rostered as Fall 2017-2018
- Enter the term tested as Spring 2016-2017
- If prompted, enter school, instructor and class
- The growth comparison period is Fall 2016-Spring 2017
- Click on Create Report

Please see the attached Achievement Status and Growth Report reference guide for more information.

- 1 Norms reference data: indicates which NWEA norming study your report data draw upon.
- 2 Growth comparison period: The two terms for which you wish to receive student growth data.
- 3 Weeks of instruction: The number of instructional weeks before testing, as set by your school or district administrator.
- 4 Optional grouping: You may choose to view results by gender or ethnicity, if your district submitted a program file; you may also view summary results by special program.
- 5 Small group display: Summary groups of fewer than 10 students will display when you select this option while generating reports.
- 6 Percentile: The percentage of students in the NWEA national norm sample, for this grade and subject area, that this student's score (or group of students' mean score) equaled or exceeded. Percentile range is computed by identifying the percentile ranks of the low and high ends of the RIT range (see entry 15, RIT range).
- 7 Conditional growth percentile: The conditional growth index (see entry 31) translated into national percentile rankings for growth.
